<sup>a</sup> Housing data presented in this table indicate the number of beds dedicated to an employee. For example, a single-family house dedicated to one employee is considered to be one bed. Spouses or partners employed by other employers are not double counted, as beds are assigned to the primary employee whose job permits the housing allotment. Privately owned housing is counted as an individual unit (bed).

<sup>b</sup> Includes private housing in El Portal and Wawona, and other employers' housing (Yosemite Institute, Yosemite Association, U.S. Post Office, etc.).

<sup>c</sup> Some of these units are privately owned trailers in the El Portal Trailer Village that are occupied by primary park concessioner employees.
